

Cody C. Mason, Ph.D.

Curriculum Vitae, May 2024

Associate Professor

University of West Georgia, Geology Program
Callaway Building, 1601 Maple St.
Carrollton, GA 30118

Phone: (678) 839-4071

Email: cmason@westga.edu

Office: Callaway Annex G53

Education

Ph.D. Geosciences, Virginia Tech (advisor Brian W. Romans) 2017

B.S. Geology, Fort Lewis College, 2011

Professional Experience

2023 – Present: Associate Professor, University of West Georgia

2018 – 2022: Assistant Professor, University of West Georgia

2017 – 2018: Postdoctoral Researcher, Virginia Tech

2015 – 2016: Statoil Summer Intern, Austin Texas

2013 – 2016: Teaching Assistant, Virginia Tech

2012 – 2015: Research Assistant, Virginia Tech

2011: NAGT/USGS Summer Intern, Lakewood Colorado

Teaching

Oceanography (online)

Coastal Geology (spring terms)

Sedimentation and Stratigraphy with Laboratory (fall terms)

Physical Geology Lecture and Laboratory (fall/spring terms)

Historical Geology Lecture and Laboratory (fall/spring terms)

Independent Research Topics (ongoing undergraduate research)

Regional Applications of Field Geology (summer 2019)

Sedimentary Petrology (fall term 2018)

Appalachian Geology Seminar (spring term 2017, Virginia Tech)

Research Interests

Sedimentology and stratigraphy of alluvial, fluvial, and marine environments, sediment provenance, source-to-sink analyses, bedrock and detrital geo-thermochronology, sedimentary geochemical proxies for surface processes including cosmogenic radionuclides, and study of microplastic pollution in sedimentary environments.

My recent projects have included the mentorship and direction of undergraduates in field and/or laboratory-based research in the following geographic areas: the Paleo-Mississippi River, the Amazon River-Fan system, the Paleo-Colorado River system, the Panamint

Valley/Mountains, and the Savannah River and adjacent coastal areas in the southeastern U.S.

Invited Speaking Engagements

2023: Atlanta Geological Society: "Sediment provenance techniques and their applications to large rivers of North and South America"

2021: Simon Fraser University ARISE Research Seminar, "From catchment-fans to continent-scale sediment routing systems: Insights from detrital geochronology" [Virtual Presentation]

2020: Geological Society of America National Meeting, "Timescales of episodic tectonic denudation using detrital zircon double dating in the Amazon River to fan system" [Virtual Presentation]

2019: University of Mississippi, "A world in a grain of sand: detrital geochronology of the largest sediment routing systems of the Americas"

2019: Tulane University, "A world in a grain of sand: detrital geochronology of the largest sediment routing systems of the Americas"

2017: Fort Lewis College, "Graduate Research and Graduate Student Life"

Undergraduate Independent Study Advisees (University of West Georgia)

2023-2024 Ana Dos Santos, Conrad Dearing

2022-2023 Georgia Waddell, Matthew Worthan

2021-2022 Matthew Worthan

2020-2021 Cole Mayer, Matthew Johnson

2019-2020 Jourdan M. Speessen, Jack Heltzer, G. Paul Miles II

2018-2019 Steven Whatley

Synergistic Activities

- 2017-present, Peer Reviewer: Geology, Earth and Planetary Science Letters, JGR Earth Surface, Geosphere, Earth Surface Dynamics, Geological Journal, Basin Research
- 2016-2023, Convener or Co-chair for a total of *six technical sessions: Geological Society of America National Meeting (2020; [virtual]), Geological Society of America Annual Meeting (2019; Phoenix, AZ), American Geophysical Union Annual Fall Meetings (2017; New Orleans, LA & 2018; Washington D.C.), Geological Society of America Southeastern Section Meeting (2018; Charleston, SC). *Note, one session at AGU 2023 was merged, and I stepped back to allow early career faculty to convene.

- 2019, NSF funded Sed Strabo workshop participant, Salt Lake City Utah
- 2019, NAGT Early Career Workshop participant, College Park, Maryland
- 2019, proposal reviewer for Deutsche Forschungsgemeinschaft (German Research Foundation)
- Presenter: 2016 Friends of the Pleistocene Pacific Cell field trip. Panamint Valley, California

Memberships in Learned Societies

Geological Society of America (GSA)
American Geophysical Union (AGU)
Society for Sedimentary Geology (SEPM)
National Association of Geoscience Teachers (NAGT)

Grants and Awards

2023-24: Professional Development Award \$1,000. Paleo-Colorado River Field Research.

Student Research Assistant Program (SRAP): \$1,550. Investigating sediment-source areas in the Pliocene Paleo-Colorado River using sediment provenance techniques.

2020: University of West Georgia Faculty Research Grant: \$3,175. How fast do mountains erode? A case study from the Panamint Mountains, California.

2018: Subaward from Virginia Tech: \$43,000. Source-to-Sink Dynamics of Large Sediment Routing Systems With and Without Continental Ice Sheets: Value of Detrital Zircons for Sediment Routing System Characterization and Prediction.
